

SimulScan

NEXT GENERATION AUTOMATED DATA CAPTURE FOR ANDROID

If you are looking to streamline, simplify and error-proof barcode and document capture in your enterprise, SimulScan from Zebra makes it easy. Just integrate SimulScan's Multi-Barcode and Document Capture solutions into your native application to take process automation to the next level, reducing cycle times and increasing worker efficiency and task accuracy. SimulScan Standard Multi-Barcode and Standard Document Capture are not only easy to configure and easy to integrate, they are yours to use free of charge — and if you need advanced features, Professional versions are available for a low per-device fee.

Multi-Barcode

Do your workers need to capture multiple barcodes on items? With a single press of a scan button, SimulScan's Multi-Barcode enables the simultaneous capture of all or specific barcodes on a single label — no more time wasted on repetitive scans. Flexible mix-and-match criteria enables the easy selection of the right barcodes.

Benefits of SimulScan Multi-Barcode

- Reduce scan time and reduce cycle times — no more repetitive scanning to capture all required barcodes
- Smoother workflows — no need to cover surrounding barcodes before scanning
- Simultaneous capture of barcodes and new information to improve operations

Document Capture

Do your workers need to capture data from a form? With SimulScan Document Capture, your workers can capture barcodes, text fields, phone numbers, check boxes and images, all with the press of one button. You can even detect if a signature is present and define the appropriate workflow. Since the data is instantly parsed into the right fields in your business application, no manual data entry is required — eliminating the cost and opportunity for errors.

Benefits of SimulScan Document Capture

- Significantly reduce cost by eliminating manual data entry
- Substantially reduce errors through automated data capture
- Achieve 100% compliance with a complete audit trail
- Reduce cycle times through instant processing, right at the point of transaction

**TAKE AUTOMATED BARCODE AND DOCUMENT CAPTURE TO THE NEXT LEVEL
IN YOUR BUSINESS WITH SIMULSCAN — ONLY FROM ZEBRA.**
